

Everything you Need to Incorporate Implants into Your Practice.

The Basics of Implant Placement

The demand for dental implant treatment is continually growing. This program is designed for dentists to engage in the benefits of incorporating simple implant placement into their practice. It is designed to educate those who have limited or no experience with the surgical placement of dental implants. Through a combination of lecture and benchtop hands-on applications, this course will give you the confidence to provide simple to intermediate dental implant treatment, and significantly increase revenue. The importance of risk factors, case selection and treatment planning will be detailed. Together we can elevate your practice.

COURSE OBJECTIVES

- › Introduction to dental implants
- › Review of oral anatomy
- › Didactic learning through case presentation
- › Bone physiology and osseointegration
- › Surgical protocols
- › CBCT scan
- › Hands-on model osteotomy preparation and implant placement
- › Understanding proper case selection and treatment planning
- › Identify optimal implant by indication
- › Understand the parameters for implant retained overdentures

INSTRUCTOR
Dr. Ankar Gupta

Dr. Gupta started a practice from scratch in 2005 after completing a one-year GPR in Cleveland. Armed with what he considered adequate knowledge, hand skills, and a personable demeanor, he watched as his practice flounder, finances became unpredictable, and his lower back and spirit toward life became worrisome. Rather than continue the trend, he made a guinea pig out of his office, family, and self; attempting any and all personal and professional "experiments" in self-improvement.

More than a decade later, he enjoys excellent new patient numbers and case acceptance, a solution oriented dental team; and most importantly, a meaningful and positive identity. He happily shares the failures and successes with dental and community groups throughout the country, always ending his presentations with practical, implementable, step-by-step ways to be better.

1-1/2 Day Course • 14 CE Credits August 27-28, 2021 • Limited to 20 Participants

COURSE DETAILS

Friday, August 27

7:30 am – 8:00 am	Continental Breakfast
8:00 am – 12:00 pm	Lecture (includes 15 minute break)
12:00 pm – 12:45 pm	Lunch
1:00 pm – 3:00 pm	Hands-on implant placement with models
3:00 pm – 5:00 pm	Lecture
6:00 pm	Dinner

Saturday, August 28

8 am – 11:45 am	Lecture
12:00 pm – 12:45 pm	Lunch
1:00 pm – 2:00 pm	Live surgery demo with patient
2:00 pm – 3:00 pm	Question & answer session
